Advanced Printed Circuit Assemblies for High Reliability Applications

As a special email promotion during the month of November, we are waiving all tooling and setup charges for your new or current printed circuit board, printed wiring board or circuit card assembly requirements up to \$2500 in value. This promotion is available to both new and existing customers of legally incorporated businesses for all setup charges required for product realization excluding electrical testing. A valid purchase order is required and we accept Visa and Mastercard for your payment convenience. Please contact our Sales Department today at (860) 349-1735 for more information or email your quotation package including gerber files, drawings, bill of materials or other applicable specifications for your assembly directly to us at sales@techmfgcorp.com and we will contact you within 24 hours with a quotation that will start the process!

Technical Manufacturing Corporation is a Connecticut-based contract electronics manufacturer who has been supporting our high-technology based commercial, industrial and military customers for over twenty-five years. Today, we specialize in the manufacture of advanced technology printed circuit board, printed wiring board and circuit card assemblies that span across all industries and include everything from general consumer electronics to high performance products where high reliability and continued performance is critical. Contact us today at sales@techmfgcorp.com or visit us on the internet at <http://www.techmfgcorp.com> for more information on our contract electronics manufacturing services. [More»](#)
