

FOR IMMEDIATE RELEASE

Company to Exhibit Services at the Manufacturing 4 the Future Aerospace and Defense Trade Show

Durham, Connecticut – April 2014 – Technical Manufacturing Corporation, a leading supplier of contract electronics manufacturing services to the aerospace and defense industry for mission-critical, high-reliability and harsh environment applications where reliability and continued performance is critical, announced this month that it is exhibiting for the first time at the Manufacturing 4 the Future tradeshow in Hartford, Connecticut on May 6-8, 2014. Produced by the Society of Manufacturing Engineers, The Manufacturing 4 the Future tradeshow was developed to help technology-based east coast companies in the aerospace, defense and medical industries connect with and develop their supply chain to better position themselves to compete in the marketplace through innovation and collaboration.

The company will occupy booth 2113 at the tradeshow and will have sales and technical staff available to meet with new customers and to discuss the manufacture of their products. Show attendees who visit the Technical Manufacturing Corporation booth will be provided with literature on the company's line of advanced contract electronics manufacturing services and can review a wide display of product samples spanning a full array of rigid, flexible and rigid-flex printed circuit board assemblies that the company has manufactured for various customers.

About Technical Manufacturing Corporation

Technical Manufacturing Corporation is a Connecticut-based contract electronics manufacturing company that has been successfully providing electronics manufacturing services to companies worldwide since 1985. We build a wide variety of electronic and electromechanical products for our customers, which are used in many different commercial and military applications across all industries including the medical, computer, automotive, aerospace, test & measurement and telecommunications industries.
