

FOR IMMEDIATE RELEASE

Company Profiled by United States Senator Chris Murphy
in "Murphy's Monday Manufacturer" Weekly Series

Durham, Connecticut – February 2019 – Technical Manufacturing Corporation, a leading supplier of contract electronics manufacturing services to the aerospace and defense industry for mission-critical, high-reliability and harsh environment applications where reliability and continued performance is critical, announced this month that it has been profiled by United States Senator Chris Murphy as the latest company to be highlighted in his "Murphy's Monday Manufacturer" series. For the last few years, Senator Murphy (D-Conn.) has been recognizing Connecticut manufacturers each week via a press release and Senate certificate to emphasize their contributions to Connecticut and to promote the great work being done by companies and people here in the state.

"For almost 35 years, TMC has proven that Connecticut has the best manufacturers in the world. TMC is local but their products are used to keep us safe all around the world. I'm proud to highlight their work, and happy to see them continue to grow", said Senator Murphy. In response to the press release, The Middletown Press and the Hartford Business Journal are preparing articles on the company to be published shortly. For more information or to read the press release, please visit the Senator's website at <https://www.murphy.senate.gov/newsroom/press-releases/murphy-highlights-durham-manufacturer-technical-manufacturing-corporation-as-this-weeks-murphys-monday-manufacturer>.
